COATED CHAIN

Featuring a specially developed zinc-aluminium compound coating, Donghua Pro coated chains offer high corrosion protection.

Designed with chemically treated nickel plated pins, hardness up to 1,000 HV, and incorporating a corrosion resistant lubricant able to withstand extremes of temperature [-15° to +80°C] Pro Series chains provide enhanced wear resistance and longer service life in the harshest conditions.

Features at a Glance:

- High corrosion protection
- **Long service life**
- Available in Roller, Leaf and Conveyor chain configurations
- **No hydrogen embrittlement**
- Ultimate strength exceeds DIN minimums
- **Fully compliant with DIN:8187 & DIN:8188**
- Reduces maintenance costs
- **Available with attachments**
- Excellent durability against astringents, petrol and brake fluid
