

CONVEYOR CHAIN

Donghua high performance conveyor chains developed with built-in features to significantly increase their ultimate tensile strength.

DONGHUA

CONVEYOR CHAIN

With increasing demand for higher breaking loads Donghua high performance conveyor chains have been developed with hardened plates; improving ultimate tensile strength by up to 90%.

Donghua conveyor chains are exported worldwide providing conveying solutions across a wide spectrum of industries and applications.

Available in imperial and metric pitch sizes with weld-on or integral standard bespoke attachments.

Features at a Glance:

- Hardened link plates - increase breaking load
- **High performance**
- High fatigue and long wear life
- **Plain or flanged roller and bush versions**
- Standard integral or weld-on attachments available
- **Bespoke design attachments**
- Lubricated ready for use
- **Available in zinc plated**
- Available in stainless steel (ansi 304)
- **Packed in 5m lengths with connecting link included**
- Connecting links available in cotter pin, Binx nut and circlip versions
- **Coated version available for added corrosion protection**
- All chains boxed for easy storage and handling
- **Available in imperial and metric pitch sizes**

Donghua Offer:

UK based distribution centre with 7000 sq ft of warehousing capacity
Huge local stock holding
Extensive product range
Regional stockists
Wide range of materials & alloys
Next day delivery
Chain cutting services
Bespoke chain supply
Large database of original equipment part numbers available
ISO 9001 accreditation
API endorsed production

Huge Local Stock Holding & Bespoke Chain supply is available from Donghua Limited's UK Distribution Centre
