## Delivery Options

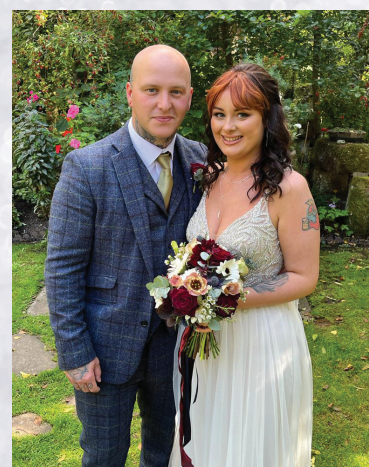

We offer our customers a range of delivery options across the UK and Ireland to ensure they receive Donghua Chain when they need it.

With a huge stockholding of standard chain in our 25,000 sq ft warehouse in

the Midlands, we offer Next Day or even Same Day delivery (subject to product type and quantity required). 24 hour delivery is available on common builds on orders placed before 3.30pm.

We also have a Trade Counter where customers can collect their chain orders direct from our warehouse. (We do not sell direct to end-users).

## Wedding Bells!

Congratulations to Claire, our Sales Office Manager, who got married in September.

Claire has changed her surname and her new email address is [c.lewis@donghua.co.uk](mailto:c.lewis@donghua.co.uk)

## New Machinery

Bob has got his eye on a new automatic cutting machine which will arrive in the New Year and expand the capabilities of our Technical Workshop even further!

The new machine is quicker and more accurate than our current tools and will be the only automatic machine in the UK able to cut Leaf Chains. It can also be adapted for automatically riveting Attachment Chains.

## Competition

### Win a Festive Hamper for Christmas

For a chance to win a festive hamper, find all the words in our Word Search and email your entry, along with your name and contact details, to: [sales@donghua.co.uk](mailto:sales@donghua.co.uk)

All correct entries will be put into a prize draw. Competition closes at midnight on **Friday 16 December 2022**; entries received after this time will not be included. The winner will be drawn on **Monday 18 December** and will be contacted direct. Winner details will also be announced on our website and social media channels.

We will endeavour to deliver the hamper before Christmas.

- 1 Optimised plate shape
- 2 Calibrated pin and bushing holes
- 3 High press fit to guarantee maximum fatigue strength
- 4 Special heat treatment and surface-coated pins give exceptional wear life
- 5 Seamless bushings & rollers throughout
- 6 High performance pre-lubrication

## X<sup>3</sup> Chain Launched in UK

At the start of 2022 we launched our new X<sup>3</sup> Roller Chain. This chain forms part of our Premium Range, offering a deluxe solution to problems with chain wear, chain fatigue, corrosion, high speed, lubrication, chain length accuracy and chain strength.

The superior quality, durability and outstanding wear and fatigue resistance is as a result of a number of key features including:

- new hardened, shot-blasted plate shape
- calibrated pin and bushing holes
- special heat-treated and surface coated pins
- seamless rollers and bushings
- high performance pre-lubrication

But what's most impressive about X<sup>3</sup> is that it delivers **three times** the performance for wear resistance, fatigue resistance and high speed compared to comparable Roller Chain!

X<sup>3</sup> is designed with a unique pin coating, optimised plate geometry and high precision stamping, and is perfect for high demand drives.

To download our X<sup>3</sup> catalogue, visit our website or call us on 01902 866200.

## Welcome

2022 has been a turbulent year with the continued impact from the Covid-19 pandemic; the Russian invasion of Ukraine displacing millions of people, concerns about the energy and cost of living crisis; the race for a new leader of the Conservative Party and Prime Minister; and the death of our beloved Queen.

Positive moments have been few and far between but have included the Queen's Jubilee; England winning the UEFA Women's Euro 2022; and the Commonwealth Games held in Birmingham not far from our offices.

Closer to home within the Donghua family, we launched our new X<sup>3</sup> Chain, we continue to expand our network of Approved Product Partners and Stockists and we celebrated a wedding!

Here's wishing for a more settled 2023.

Best Wishes,  
**Bob Wellsbury**

## North West:

### Ocean Engineering Solutions Ltd

UK's leading supplier of bearings offering a comprehensive MROS service.  
<https://www.oceanengsolutions.co.uk>

### Chain + Conveyor

The UK's largest independent stockist of conveyor chain and sprockets offering in-house design services, fabrication, welding and machining.  
<http://www.chainandconveyor.co.uk>

## Ireland

### Reliance Bearing and Gear Co with locations in Cork, Dublin and Limerick.

Ireland's largest authorised technical distributor of industrial engineering products, agricultural mechanical components and advanced automation solutions.  
<https://reliance.ie>

## Midlands:

### Bearings Transmission & Pneumatics Ltd (Derby)

Large stockholding and complete service from design, supply and installation.
