

# Food Industry Chain

Compatible with all the leading manufacturers of food production machinery

[donghua.co.uk](http://donghua.co.uk)

We only have one standard. The Best.

Donghua supplies the food production industry with a range of high quality chain compatible with leading food equipment manufacturers including:

- Baker Perkins
- Bradman Lake
- Ishida
- Johnson
- Krones
- Meurer
- Panamat
- Rademaker
- Raque
- and more...

## Food Industry Chain at a Glance:

- H1 food grade lubrication
- FDA approved
- special alloy coating
- corrosion resistance
- preloaded
- matched and tagged
- UK distribution centre with 25,000 sq ft warehouse
- huge local stockholding
- regional stockists
- next day delivery

## Donghua Food Industry Chain:

**Polymer Chain** - plastic conveyor chain designed specifically to prevent the ingress of foreign matter and reduce maintenance costs and downtime. With less moving parts and with no roller to wear down, this chain reduces the need for additional maintenance.

**Stainless Steel Chain** - including Drytec chain which is designed with plastic sleeves – provides maximum wear life due to its corrosion resistance. Suitable for use in high and low temperature conditions.

**Bespoke Chain** - specially designed attachment chain, built to client requirements.

**Universal Attachment Chain** – our 'one chain fits all' attachment chain which replaces 99% of other manufacturer's chain. Available in standard, nickel plated, coated, self-lubricating and stainless steel finishes.
