

- 1 Optimised plate shape
- 2 Calibrated pin and bushing holes
- 3 High press fit to guarantee maximum fatigue strength
- 4 Special heat treatment and surface-coated pins give exceptional wear life
- 5 Seamless bushings & rollers throughout
- 6 High performance pre-lubrication

A premium high performance Roller Chain solution

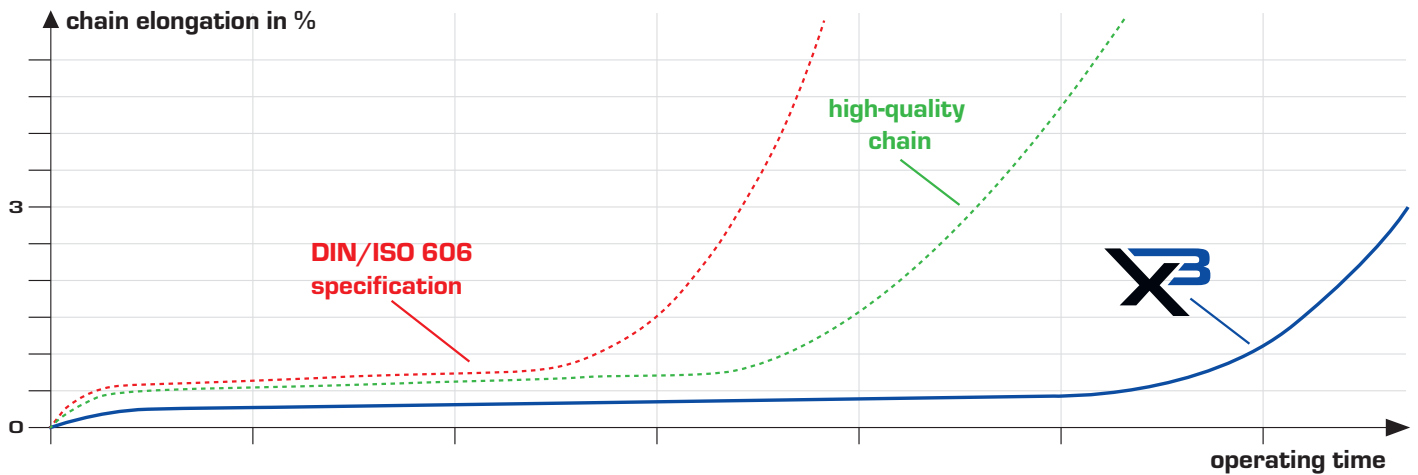

Delivering three times the performance for wear resistance, fatigue resistance and high speed performance against comparable Roller Chain.

donghua.co.uk

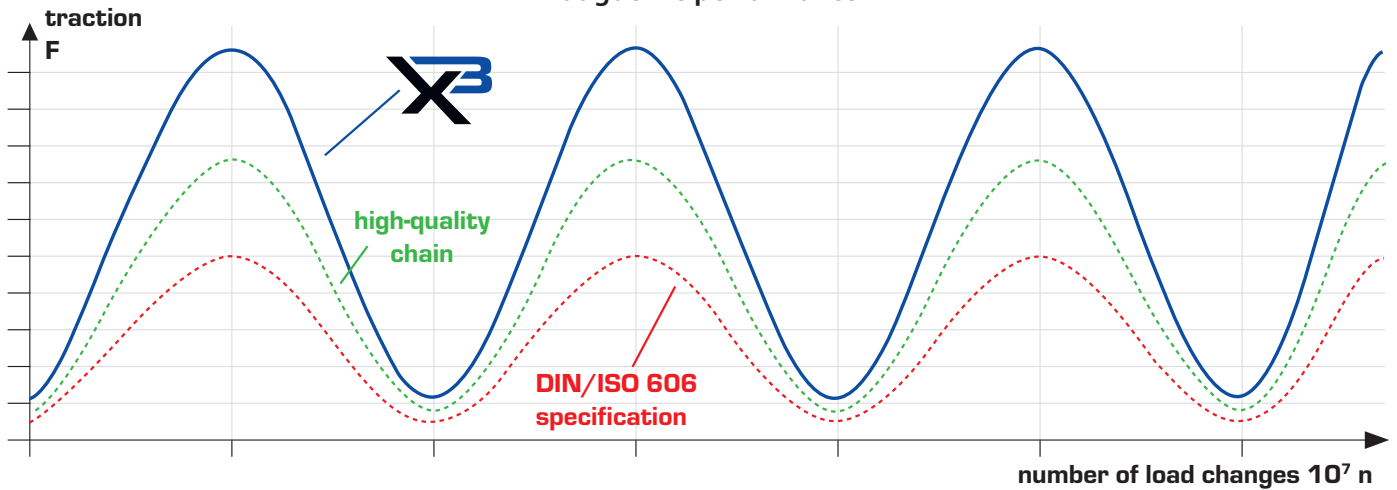

We only have one standard. The Best.

Wear life performance

Fatigue life performance

Donghua's new premium X³ series chains are manufactured using new production techniques and new surface treatments including unique pin coating, optimised plate geometry and high-precision stamping.

These innovations result in a chain delivering three times longer performance with higher wear resistance, higher fatigue resistance and greater precision.

Donghua's X³ Chain is available in British standard 06B to 24B in simplex and duplex.

At a Glance:

- Greater precision than standard roller chains
- Optimised, hardened shot-blasted plate shape
- Calibrated pin and bushing holes
- High press fit to guarantee maximum fatigue strength
- Special heat treatment and surface-coated pins give exceptional wear life
- Seamless bushings and rollers
- High performance pre-lubrication
