

Coated Chain

Specially Developed
Zinc Flake Coating.

Donghua's Coated Chains are designed specifically for use in harsh environments where salt or water ingress demands a high corrosion protection.

donghua.co.uk

We only have one standard. The Best.

Donghua Offer:

- UK based distribution centre with 25,000 sq ft of warehousing capacity
- Huge local stock holding
- Extensive product range
- Regional stockists
- Wide range of materials & alloys
- Next day delivery
- Chain cutting services
- Bespoke chain supply
- Large database of original equipment part numbers available
- ISO 9001 accreditation
- API endorsed production

Coated Chain at a Glance:

- High corrosion protection
- Long service life
- Available in Roller, Leaf and Conveyor chain configurations
- No hydrogen embrittlement
- Ultimate strength exceeds DIN minimums
- Fully compliant with DIN:8187 & DIN:8188
- Reduces maintenance costs
- Available with attachments
- Excellent durability against astringents, petrol and brake fluid

Featuring a specially developed Zinc Flake Coating, Donghua Coated Chains offer high corrosion protection.

Designed with chemically treated nickel plated pins, hardness up to 1,000 HV, and incorporating a corrosion resistant lubricant able to withstand extremes of temperature (-15° to +80°C). Pro Series chains provide enhanced wear resistance and longer service life in the harshest conditions.
